Dr. Fowler

I got in touch with Larry Simonson about budgets and plan to reach Minnesota advisor hopefully today. A third meeting with the Dean is scheduled for this Wednesday at 1:30. The Dean really liked the artwork but mentioned putting a powercat next to the bottom text. Also, I received more samples from Wichita so if you want to see them let me know and I'll bring them by the office. I can also show you how much the folders are going to cost.

Heather

If you can meet me on Wednesday with the artwork modification that would be great. He just wants to see a little powercat just to the left of the text. Also, I need to talk to Margie in Wichita but I think that we need to slightly reposition some of the artwork so it will fit on the folder.

Also, Dean requested that I look into pricing folders from the Union and I'm in the process of doing that as well. Later.

Randy
